## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-16 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit/method comprising, among other limitations and unobvious limitations of "wherein the monitoring signal is the output signal or a modulated version of the output signal" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Claims 17-19 are allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly teach or suggest the claimed circuit comprising, among other limitations and unobvious limitations of "a feedback controller comprising: a sawtooth wave signal generator for generating a sawtooth wave signal; a slope detector for generating a signal representing the slope of the sawtooth wave signal; an abnormal state detector for generating an abnormal stage detection signal in response to a monitoring signal; and a feedback decider for generating the control signal in response to the abnormal stage detection signal" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
